

FRIDAY, OCTOBER 15, 1889

The man Augustine Montoya, that we had killed yesterday morning by a pistol ball at the hands of Dionicio Garcia, is yet alive and seems in a fair way to recover, under the skillful treatment of Dr. Tipton. The facts are he was shot with one of those small caliber pistols which boys carry in the States, under the impression that it makes desperate characters out of them, and which western men only use to shoot an opponent with in order to make him mad. It drives a little hole in the body and will kill under about the same conditions as a penknife. Thus the reporter was led into an error by supposing that his goose was cooked by a forty-five bullet from a regular old Colt's six shooter and that no power on earth could save him. He had received the last sacrament at the hands of the Priest and he had all the appearances of dying. We are glad Montoya is alive, however, if it did spoil a good item.

Texas Kelly, a namesake of the famous Kelly, and called "Concho" for short, who has been leading a band of night prowlers, who shoot off pistols at restaurants and make night hideouts and life unsafe, was arrested yesterday by officer Perry of the east side and taken before Judge Steel. The latter heard the case on its merits and sent the gentleman "Concho" to serve the county for three months. He appears to have been a leader among a gang of bunners who have been driven out of the southern towns either by the strong arm of the law or want. They have rendezvoused here and we suppose they could be considered valuable in filling up the empty end of the bridge. Concho asked for a guard and got it, to be escorted to the jail in the old town. He wanted the guard for fear he would be hung.

General Grant observed, so he says, while in Mexico that there was no lack of willing labor among the native population to develop its resources and make it a great country. Grant is a shrewd observer and is as well headed in this as in most of his decisions. The native population as a rule are not the indolent people which strangers pronounce them from the lack of improvements in the country. They have energy, industry, activity and can endure much labor and fatigue. But let their industry be directed in proper channels and they be taught the habits of thrift and providence which naturally belong to the universal Yankee. They need the example of the hard working population of the states. They want to know how and they have the energy to execute.

Funny mistakes occur in types occasionally, particularly in a telegraphic report which comes in along to ward morning. For instance, yesterday morning in a Wheeling, West Virginia, dispatch to the New Mexico the following funny sentence appeared: "The Republican candidate for governor carries would to the home of the Democratic candidate." It should be: The Republican candidate carries Wood county, the home of the Democratic candidate. But possibly the Democratic candidate was too poor to get a second haul.

The directors of the Las Vegas hotel met last night at the office of A. Bold. There was a full attendance and the by-laws discussed and plans projected for beginning work. There was a determination shown to proceed at once with the rapid construction of the house. They adjourned to meet this morning again at nine o'clock to perfect the organization and complete the details.

Las Vegas has quite the appearance of an eastern city. The young people formed into merry groups going to school in the morning, our military company and band boys to turn out on public occasions, and the fine rigs and fast steppers, would do justice to many a town twice our size in the east. And last but not least, as good a morning paper as there is in the east.

A crowd of hungry and ill-mannered roughs have been invading restaurants, eating all they can fill themselves with and then shooting off pistols and making themselves generally disagreeable. Threats were made yesterday and the Rifles were called out to see that order was kept. At last reports, nothing worthy of note had transpired.

Bro. David, president of St. Mary's college, Mora, in company with several professors and teachers of that well known institution of learning were visiting in the city yesterday.
